AWAITING CLEANUP trucks are these piles of trash and brush in front of residences. The city, along with county and state employees and trucks, will make a "clean sweep" of the city Thursday (today) and Friday, picking up loads of junk and trash from residents and businesses. Anything that can be loaded on a truck will be picked up. This even includes junk appliances or other debris.

As I understand it, there is no auditorium planned in the new bond program for the Cameron Independent School District.

I think this is a mistake which can be rectified by some additional planning prior to the election.

We are for the bond program, the approximate $1.2 million proposal, because the need is so obvious no amount of discussion will develop any coherent objections to solving the need.

The need for an auditorium is real, and school board members know it. They supported in generosity the Dallas Symphony's student concerts last year at National Guard Armory. And the problem of hauling the student body was a big one. A campus auditorium would enable such major attractions to be handled with ease as well as the many other functions auditoriums encourage.

It is a start that should be supported. A number of people, however, would like to hear some public assurance that this long-range program will include an auditorium before the whole program is complete.

Subsidies and payment for non-production may be the thing. I think your Herald will increase its press run by 10,000 and ask to be paid for not printing it.

To which the Post Office Dept. and Internal Revenue would answer: "Har-dee har har!"

113-113-113

You meet a lot of people in newspaperdom, public people like the state senator from East Texas on a flight Southeast last year.

Never had met the man, but he knows Cameron and the things occurring here. He said it is difficult to take on a town, "A whole town", as he put it. I wondered, of course, what he was saying.

I said nothing. Let the record speak.

Sunday Mail Service To End August 20

Cameron postal patrons will get another cutback in postal service effective August 20 with announcement by the Postal Department that Sunday lockbox service along with any dispatch of incoming mail will be discontinued.

Narvie Caperton, Cameron postmaster, said the new order will mainly affect the 500 box renters who have been getting Sunday newspapers and other mail at the post office on Sunday mornings.

He said the outgoing dispatch of mail from the outside collection box at the post office will not be affected by the new order. He said mail patrons should use the outside collection box after 4 p.m. Saturday and all day Sunday as no employees will be permitted to work in the local office on Sunday.

Caperton said a survey team was in Cameron this week and changes in employee hours worked might be altered following their report. Other post offices in the Temple Section Center area discontinued Saturday window service this year, however the Cameron post office has had one hour of window service on Saturday morning.

Caperton said that although receipts at the local post office have increased each year since 1966, the number of postal employees has dropped. This came with the consolidation of rural routes 3 and 4 last year. He said postal receipts for the most recent fiscal year (July through June) were $115,000 - a 10 percent increase over the previous year.

Following a request by Cong. W. R. Poage, postal officials are reviewing the mail operations at the Temple Sectional Center. At present, all mail from the area is forwarded to Temple and held there until midnight when it is forwarded by truck north or south. Cong. Poage, in a letter to the Postal Department, suggested that train or air service be utilized to move the mail faster.

He pointed out that north bound air service was available from Temple at 6:15 a.m., 10:30 a.m., 2:59 p.m. and 8:45 p.m. and the Texas Chief comes through Temple a little after noon arriving in Chicago the next morning.

Put Trash Out For Cleanup Day

All Cameron residents are urged to help the city in its cleanup effort this week, by putting out trash and junk no longer wanted out near the curb for pickup.

Trucks will run Thursday (today) and Friday picking up the junk for dumping. County and State Highway Department dump trucks will be helping city trucks in the effort.

"Anything that can be loaded on a truck" will be picked up, city officials said.

Buckholts School Turns Down Transfers

The Buckholts school board voted not to accept transfers from the Cameron Independent School District following receipt of a letter from J. W. Edgar, Commissioner of Education.

The letter stated that the Buckholts High School District had accepted 11 Anglo American transfers and 5 Mexican American transfers from the Cameron school district.

The letter read: "This is to advise that due to the considerable difference between the minority student percentage of the Buckholts Rural High School District and such percentage in the Cameron Independent School District, we are unable to approve the transfer applications.

"Our approval, we believe, would violate Paragraph A of the Order in Civil Action No. 5281, United States District Court, Eastern District of Texas, Tyler Division, which reads as follows:

"A. Student Transfers. Defendants shall not permit, make arrangements for or give support of any kind to student transfers, between school districts, when the cumulative effect in either the sending or receiving school or school district will be to reduce or impede desegregation, or to reinforce, renew, or encourage the continuation of acts and practices resulting in discriminatory treatment of students on the ground of race, color, or national origin."

In other business, the school board:

Employed Mrs. Cheryl Johnson and Mrs. Audrey McCall as part time aides;

Set school lunches at 40 cents and 50 cents;

Approved substitute teachers;

Re-directed the Agriculture Program to include cooperative part time training.

Agent Sees Good Year For Crops

By Bill McCutchen
Milam County Agent

The 1972 crop in Milam County will probably be one like Grandad used to tell about. It is somewhat premature, but agricultural income should be up considerably over the 1971 crop year. 1971 was a lean year and the 1972 crop is shaping up to be one of the best in recent years.

The grain sorghum harvest is being completed with excellent yields over most of the county. Yields of 4,000 and 5,000 pounds are not uncommon and prices although low, are better than many expected.

Cotton around the county is opening rapidly with defoliation beginning on some of the early plants fields. Cotton yields will range from excellent to crop failure. Early cotton is generally good with late cotton hard hit by insect damage. The overall picture on the cotton crop is favorable and the price at this time looks to be more favorable than anytime in recent years.

Cattle prices in the 1971 crop year were about the only thing that kept farmers heads above water and they have continued good through 1972 with hog prices moving above the break-even point early in the year and showing some profit in recent months.

The hay crop this year has been excellent and native and improved pastures have been in good shape all spring and summer.

Truck crops, including watermelons, tomatoes, and cantaloupes have done well this year with prices generally favorable.

It is too early to tell what the peanut crop will do but the crop is making excellent progress at this time.

The pecan crop promises to be one of the best in history in the county with over a million pound crop projected for the county.

Milam County is due a good crop as there have been a string of lean years for farmers and remembering how things were in 1972 will help farmers going through some of the rough years that are undoubtedly ahead.

Schedules Ready At Yoe High

Yoe High School students will pick up their schedules as follows:

Seniors, Monday August 14; juniors, Wednesday August 16; sophomores, Thursday August 17; and freshmen Friday August 18.

New students are asked to come and register on the day set for their class to pick up schedules.

Library Board Plans Projects For Coming Year

Wayne Mann, chairman of the board of Cameron Public Library, has announced committee appointments in a new projects program for the 1972-73 year.

Board members Monday discussed new approaches to developing a $1 per capita budget for the six-year-old library and a reading program for the aged.

Mann said a presentation will be made before the Cameron City Council and Milam County Commissioners Court to encourage greater public support for the facility, which now has more than 10,000 volumes.

Board members head these committees, Mann said: Mrs. Patsy Edmonds, books and programs; Jim Woodum, building and grounds; Stewart Perkins, budget and finance; Mrs. Judy McDaniel, Friends of the Library; Roy Engram, public relations and information; Mrs. George Clark, gifts and memorials.

The proposal for a new reading program for elderly would include records and big-print books. It would be introduced by special consultants from Texas Library service, Mann said.

The library board chairman said the "board seeks to develop new library programs in keeping with other progress in Cameron."

Official estimate of the Cameron Public Library audience is 10,000 people, about half of the county population.

Mann said emphasis will be placed on creating more public interest in the facilities of the Cameron Library, which also offers records on loan, children's reading programs and other reading and research programs of modern libraries.

Bank Buys Urban Renewal Bonds

The sale of $265,000 in project notes, first series 1972, for Cameron Urban Renewal Agency went at a low-bid of 2.91 and 2.94 percent by Cameron Citizens National Bank through First National Bank of Dallas.

Sealed bids were opened noon Tuesday from five banking institutions at the offices of Cameron Urban Renewal, A. W. McCullin, executive director announced.

Low bid of $100,000 at 2.91 percent and $165,000 at 2.94 percent was signed by Goodhue Smith, president of Citizens National Bank. Paying agent is Dallas First National Bank.

Second bid plus $20 premium was 3 percent by Continental Illinois National Bank & Trust, Chicago, Paying agent First National City Bank, New York.

Third low bid plus $21 premium was 3.03 percent by Salomon Brothers, paying agent Morgan Guaranty Trust Co., New York.

Fourth bid plus $5 premium was 3.05 percent by Chemical Bank, New York, paying agent First National Bank, Boston

Fifth bid plus $28 premium was 3.06 percent by First City National bank of Houston, paying agent Manufacturers Hanover Trust, New York, New York.

Sixth bid plus $22 premium was 3.14 percent by Bankers Trust Co., New York, paying agent Bankers Trust Co., New York.

Notes will be dated Sept. 6, 1972 and will mature Sept. 7, 1973.

Smith said it was gratifying to be low bidder and that it reflected the Cameron bank's interest in the local project and other local civic and business affairs.

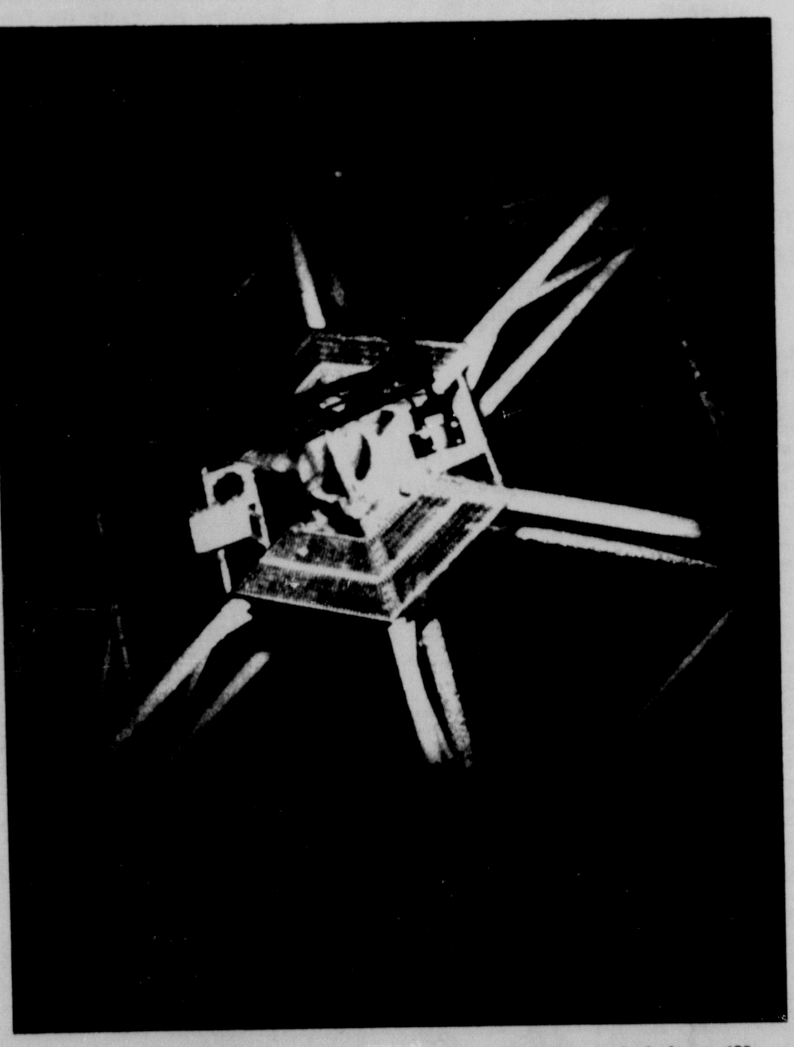
McCullin noted the notes will be guaranteed by the U. S. government as obligations of the Cameron Urban Renewal Agency.

Buckholts Gin Reports First Bale

What was probably the first bale of cotton for Milam County was baled Monday at the Modern Gin in Buckholts.

The cotton was grown by Gilbert Frenzel, from 1 and a half acres. The cotton was machine-stripped.

The seed cotton weighed 3,535 pounds in the trailer. The cotton seed weighed 1,030 pounds. The bale weighed 655 pounds.



ON OCEAN'S FLOOR -- This strange scene was photographed almost 400 fathoms (more than 2200 feet) below the Caribbean Sea surface, off Eleuthera, in the Bahama Islands. Glowing in the deep-ocean gloom is a 15-ton U. S. Navy device for detecting and analyzing underwater sound transmissions. On the bottom since 1966, the expensive acoustical array was recovered by ALCOA SEAPROBE, the world's newest and most advanced deep-ocean search and recovery vessel.

Trustees To Hold Budget Hearing

The Cameron school board will meet at 8 p.m. Thursday (tonight) in a regular session. The agenda includes a hearing on the proposed budget for 1972-73.

Also on the agenda are the acceptance of resignations and the hiring of personnel; and opening of bids for bread, milk and ice cream.

The public is invited to attend.

Toward Zero Population...

The annual population growth factor is now at .6 of a percent, a sign that the population explosion is less a problem in this country.

Were this so in less developed, more populous areas, where the annual population growth is as high as 3 percent a year. South America, India, to name two, have an inordinate rate of population increase at present.

We may be able to catch up with our metro problems if population is stable, that is, we have more births than deaths, but not anymore than we now have. We are running out of resources for additional load.

Target is "zero population growth", which would allow concentration on a static population factor, as many being born as die.

Problem is nations tend to lose their nerve when the population levels off and its average age becomes higher. At present it is probably at an historic low.

We can control our population, it would seem. But if other major nations cannot, it will someday be like a cartoon in a press magazine:

A captain standing on the bridge of his ship notes an Oriental floating by on a minute sail boat. This is in open seas. He says: "That's the 3,000,000th fellow floating east this trip. Or so it would seem."

Population control is a terrifying problem in these under-developed countries. Once industrialized nations have it under control, it will be doubly important that the rest of the world stop the people increase.

Ample Reasons...

It will be back-to-school time for thousands of Milam area youngsters as doors open starting in Buckholts August 17, Rogers August 23 and Cameron August 28, among others.

And following that will be the football season and a lot of fall tradition is renewed.

Needless to say, though it is early to say it, it would pay to start slowing down a bit in the school zone neighborhoods as a matter of practice. Those kids soon will be crossing there.

Some 6,500 scholastics attend classes in Milam area systems Milano, Rogers, Rosebud, Cameron, Rockdale, Thorndale and Buckholts.

That is 6,500 reasons to anticipate the new school year and the concerns like student foot traffic they create.

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to Review the Congressional Record Daily)

LETTUCE BOYCOTT CALLED SHAMEFUL

REP. BURT L. TALCOTT (Calif.) ". . . I was amazed by several "boycott lettuce" statements and posters which appeared at the Democratic National Convention recently.

"Apparently the perpetrators of these remarks know little about agriculture, the growing of lettuce, or the status of farm-labor management relations.

"A person who advocates the boycotting of lettuce actually harms the lettuce worker as well as the lettuce farmer and processor. If lettuce does not sell, the lettuce worker will be out of a job -- and there is little else he can do to support himself and his family. When you boycott lettuce you hurt the lettuce picker most.

"A person who advocates the boycotting of "non-union lettuce" does not know what he is talking about. Almost all lettuce grown in the Salinas Valley is union lettuce. The Teamsters Union represented lettuce workers long before Ceasar Chavez was known...

"Mr. Chavez and the UFW propaganda claims that lettuce pickers earn only $1,600 per year. Completely false.

"The average member of a lettuce harvesting crew earned $1,594.13 in the first 6 weeks of the Salinas Valley season. The average worker on one farm of moderate size, which is representative of the Salinas Valley, earned $3.07 per hour during the 12 months between June 1, 1971, and May 31, 1972.

"Farmworkers earn more in the Salinas Valley than they can earn doing anything else anywhere in the world.

"Boycotting lettuce is a shameful way of obtaining Federal legislation. boycotting lettuce hurts the people who need the most help and compassion--the farmworker and his family.

"I urge all Members of Congress to do something constructive to help the farmworker -- enact Federal farm labor legislation, so that the farmworker can enjoy the same benefits as an industrial or construction worker.

"Boycotting hurts the farmworker; Federal legislation would help.

• • • • •

CRUMP'S GRASS ROOTS COMMENT

It's not clear what Federal legislation is proposed. The "lettuce" controversy may, or may not, be a "Tempest in a teapot." But depriving a farmworker of his livelihood appears to be a bungling way of improving his working conditions.

Pedernales Falls Park Is Like Buried Diamond

JOHNSON CITY

Pedernales Falls State Park is like a diamond in the earth. Beauty is there for those who search for it.

Tucked away in the heart of the Hill Country, the 4,775 acre park is 33 miles west of Austin off U.S. Highway 290.

Access to the park from the east is over the unpaved A. Robinson Road and on Farm-to-Market Road 2766 from Johnson City.

The few roads within the park are old ranch roads and better suited to pickups instead of the family station wagon.

Known as the Circle Bar Ranch and held by the C. A. Wheatleys for 33 years, the area is still relatively primitive compared to some other state parks.

In 1970, Mrs. Wheatley sold the land to the State of Texas through the Parks and Wildlife Department.

There is no drinking water in the area and the only comforts are a few chemical toilets.

The faint heart would do better to stay home or feed the squirrels in a municipal park.

A. Robinson Road winds for over seven miles to Pedernales Falls through the backyards of ranches.

A sudden summer downpour floods the low water crossings and washes axle deep gulleys in the caliche.

Switchbacks and steep grades wind the visitor down the little park road past the headquarters, which used to be the ranch house, to the picnic grounds and to the falls observation area.

The real charm of Pedernales Falls is far back from the road.

The on-again-off-again waters of Bee Creek ramble through the limestone after a rain much as they have done for thousands of years.

As the creek nears the Pedernales River it cuts little gorges in the rock like Arrowhead Pool.

Speculation is that the little pool was so named because Indians fashioned arrow points near its waters. There is other evidence of Indian activity around the ranch and the State Antiquities Code protects all historic and prehistoric sites in the park.

Further down the fern-lined canyon, the waters of Bee Creek rush over the tiny and very fragile jewel of Twin Falls.

Past the mouth of Bee Creek and just upstream in the Pedernales River is Trammel Crossing. The trees and brush surrounding the crossing are roosting sites for a sizeable wild turkey population.

Around 7:30 on a summer evening the flock sounds like a bunch of loquacious old women settling in for an evening of tea and gossip.

Up the slope from Trammel Crossing is the picnic area. It is shaded by mesquite, oak and elm and is one of the few improved areas in the park.

Tables, trashcans and chemical toilets are provided, and what more do you really need?

The picnic area, as well as the entire park, is completely free of litter.

Last stop on the park road leads to the observation overlook for Pedernales Falls. You can admire the river from the lofty perch, but getting down to the beautiful falls takes work.

You have to pick your way through rocks and round the stiletto leaves of agarita bushes to get to a great beach.

No swimming is allowed around the falls because of the swift currents.

There are three tiers of moderately sloping falls and a pool below the last fall is open to fishing with a single pole and line or one rod and reel.

When the river is high, fish from as far as Lake Travis move upstream and the falls make a natural fish trap.

The Pedernales River winds through the park for over six miles. The cypress-lined banks are the delight of those who dawdle along its shores on a Sunday afternoon.

Until adequate developments are made, Pedernales Falls is a day use only park. No camping is allowed.

The park is open from 8 a.m. until 8 p.m. Easter through Labor Day and from 8 p.m. until 5 p.m. the rest of the year.

Plans for the park's future include a system of primitive trails which will follow old ranch roads. The system will cover six miles of meandering caliche roads.

The highest point along the trail is Wolf Mountain. Its slopes and the canyons below the mountain are ideal habitat for the rare golden-cheeked warbler.

The park's natural state is its real charm. Pedernales Falls has the potential of being the real showcase of Texas parks.

Amendment 2 To Abolish Co. District

AMENDMENT NO. 2 --H.J.R. NO. 31

The proposed amendment to Article IX, Section 6, abolishes the Lamar County Hospital District and authorizes the commissioners court of Lamar County to provide for the transfer or for the disposition of the assets of the Lamar County Hospital District.

Background

At the general election in November 1960. the Constitution, was amended by adding Section 6 to Article IX, which authorized the legislature to create the Lamar County Hospital District. Pursuant to this constitutional provision, the legislature passed legislation authorizing the creation of the Lamar County Hospital District.

The district was created and operated for several years; however, the district ceased to function and operate its hospital a few years ago. Privately owned facilities are now being used for hospital care in Lamar County.

Since the district is no longer in operation and the county would like to dispose of the assets and facilities of the district, Amendment No. 2 is offered to abolish the district and to authorize the county to take over and dispose of the assets of the district.

ARGUMENTS

Note: Arguments FOR and AGAINST this proposed amendment have been omitted because of the purely local character of the amendment. This proposal was submitted by its legislative author at the request of the commissioners court of Lamar County.

EARLY COMPASS

Compasses used by mariners in the 11th and 12th centuries were made by rubbing a sewing needle against a loadestone to magnetize it, then laying the needle on a narrow piece of wood floating in a basin of water.

OLD PHILOSOPHER

Dear editar:

There's one problem coming up in connection with airplane hijacking that the airlines and the government apparently are overlooking.

Here's the situation: the first hijacker several years ago, as I recall, demanded something like $50,000 and got it. Then a little later another demanded $100,000, and that too was produced.

Getting bolder, on account of inflation I guess, the next one demanded $250,000 and got it. Recognizing a trend when he saw one, the next hijacker demanded $500,000 and collected.

And just last week a group of hijackers asked for a cool million dollars, and that too was handed over.

Now here's the problem that's looming up: suppose the next hijacker demands 5 million dollars, the next one 10, and then finally somebody gets on board a plane loaded with say 300 passengers and demands ONE BILLION DOLLARS.

What is the airline going to do?

It can't say, go ahead, blow up the plane. And yet how is it going to round up a billion dollars?

It might try borrowing it from Washington, but Washington is so far behind on its installment payments now it's in no shape to take on anything else. One more item added to its monthly payments and everything it's got might be repossessed.

The only solution I can figure out is for the airlines to post signs at airports in big letters saying: "Attention, Hijackers, Positively No Ransom Exceeding 1 Million Dollars Can Be Paid. Limit One To A Customer."

I don't think this will do any good, but then nothing else is working either.

Yours faithfully,
J. A.

THE FAMILY LAWYER

"Greatest Show on Earth"

Day after day after day in a Los Angeles courtroom, an elderly gentleman sat attentively in a back row seat. He had no stake in any of the cases. He knew none of the participants. But when asked why he was there, he had a ready reply:

"Because this is the greatest show on earth."

Courtroom scenes do provide the central drama in countless movies, plays, and television programs. Yet, surprisingly few people go to see the real thing. Unless highly publicized, trials often take place with no spectators at all.

But as a rule, you may walk into a court as freely as into a church, with no one at the door to check your name or ask your business. When the judge in a murder trial ordered that "respectable citizens only" would be admitted to the courtroom, his order was thrown out by an appellate court as "preposterous."

Of course, around Law Day each May many people do go to court to watch justice in action. But the courts are just as open (and just as interesting) all year long. In a sense, that is what Law Day is all about.

4-H Notes

By Rodney B, Kruse

Ricky Richter and Brian Cobb, two Milam 4-H Club members, have recently distinguished themselves.

Ricky Richter, Cameron 4-H, has attended the 1972 Texas 4-H Leadership Laboratory at Brownwood July 31 to August 5.

Over one hundred 4-H junior leaders, Extension agents and adult leaders participated in this annual state lab. This lab was sponsored by Pennzoil Oil Corporation, United Gas Pipeline Company and Texas A&M University Extension Service.

All those attending were divided into different committees which had different responsibilities at the lab. Ricky was a member of the evening activities committee. This committee was responsible for planning and providing appropriate activities to involve all lab delegates during the night session.

How does it feel to have a Grand Champion at a fair? Brian Cobb, Cameron 4-H, knows about that feeling. Brian entered two dairy heifers at the Schulenberg Festival Dairy and Horse Show August 5. Here Brian had the Grand Champion Brown Swiss and placed second in his class with his Holstein heifer. Congratulations to Brian for this accomplishment.

Your Serviceman —

BAYLORITES EXCITED: ASTROTURF-

Bib, bouncy, bubbling Bill Yung, Baylor's offensive line coach on Grant Teaff's Baby Bear Braintrust, substituted for Athletic Director Jack Patterson at one of those on-campus mid - summer Freshman Orientation gatherings. Representatives from varous Baylor departments spoke to parents of the incoming frosh.

The effervescent Yung, an animated, if slightly smaller, version of Hoss Cartwright, was obviously a show-stealer on his segment. Bill got 'em up on the edge of their seats, as he described the new Green and Gold Baylor Bear football spirit, "From the new green Astroturf to the Cotton Bowl".

About an hour later, after numerous administrators had extolled Baylor's virtues, from Pat Neff to the Security System to the famed Drama Department, the emcee suggested parents ask questions. One well-dressed Mama did: "My question is for Coach Yung. When, today, will the Stadium gates open so we can go look at that Astroturf?"

HOLD ON THERE, BEAR!

Wonder why, if Emory Bellard was THE originator of the Wishbone-T offense while an assistant at UT, New Disciple Bear Bryant chose to spend a week at Darrell Royal's Longhorn spring training? Why did he not turn up at Aggieland, where Bellard had set up shop? . . . How about that Houston Straight News Radio Clown who calls Gene Elston "Mr. Blah" while extolling the virtues of Loell Passe as "Mr. Excitement?" His credibility in sports announcing is about the same as Loell's in baseball savvy. Not much.

Bill Yeoman, Houston U. Gridiron Genius, heaps unusual praise on Lufkin's gift to the Cougars, Quarterback D. C. Nobles. "We're going back to the basics of the Veer (translated, that means RUN, RUN, RUN!) for the first time since we initiated it in 1965. One of the biggest reasons? Well, we're going to have a great running quarterback in Nobles. He has outstanding quickness. He'll be a major running threat." . . . UT coaches will not make a flat statement that the Winnie Whopper, Glenn Gaspard, will never play fullback in a Burnt Orange uniform. However, D. K. Royal, you recall, returned the 6-0, 224-pounder to linebacker after an injury impeded a celebrated spring training return to fullback, where he had made like another Steve Worster as a 1970 Frosh. Who knows?

QUICKIES:

We have watched Texas Schoolboy All-Star football games since 1946 and never have there been running backs like those in the Astrodome when the South won, 15-12. How can you choose between Joe Washington, Jr., Bubba Bean, Wayne Morris, Ronnie Littleton, Alvin Bowers, Pat Thomas, Kerry Jackson, Kenny Harrison and Carl Roaches?. . . Never has there been so much running talent on one Texas football field. . . Bellard's Aggies welcome a ton of it, as Bean, Bowers, Thomas and Roaches are headed for Aggieland. Morris and Harrison will become SMU Mustangs while Washington and Jackson cross the Red River to sign up with Oklahoma . . . Two unheralded, but rugged defensive stalwarts for the South were Tackle Ed Franklin of Lamar Consolidated and Diboll's Middle Linebacker Alton Jackson.

Texas Coastal Zone Atlas Published

The first of a seven-part Environmental Geological Atlas of the Texas Coastal Zone has been published by the Bureau of Economic Geology at The University of Texas.

The innovative atlas series, providing detailed information on the environments and natural resources of the Texas Coastal Zone, will be useful in devising management plans for the prudent use of land and water in that area.

Apaches Win LL Tourney

The Cameron Apaches were named champions of the first Little League Invitational Tourney held last weekend. The Apaches are coached by Dan Garcia Jr., Arthur Montez and Tony Vargas.

In the first round of games Friday Waco Boys Club downed the Cameron All Stars 6-1. The Rosebud All Stars defeated the Rogers All Stars 17-15, and the Cameron Apaches downed the Rockdale All Stars in a 6-4 tilt.

The second round of games were played Saturday, with the Cameron Apaches downing the Rosebud All Stars 4-0.

And in the finals Saturday the Apaches took the title.

Named to the All-Star team were Steve Burggeman of Rosebud, James Menke of Rockdale, Errol Spells of Cameron, Lawrence Psencik of Rogers, Lawrence Flye of Waco, Ted Casares of Waco, and Roy Tena, Daniel Garcia, and Joe Reyes all of Cameron.

Doing some fine pitching for the Apaches was Rudy Barbosa in the shut-out over Rosebud.

The tourney was a success as $125 was cleared and will be donated to the Little League building fund.

Tourney director Bertie Shuemate thanked all the workers and umpires who made the tourney a success.

Bigbee Grandson Wins Break-Away Roping Title

Bill Bigbee, 15-year-old son of Mr. and Mrs. W. L. Bigbee of Sugarland and grandson of Mr. and Mrs. Edwin Bigbee of Cameron was winner of first place gold medallion in break-away roping at the National Southern Regional 4-H Horse Show held in Dallas August 3-5. His time was 3 seconds on the first calf and 4 seconds on another.

The National Southern Regional 4-H Horse Show presents the top point winners in various events from 13 states. Each state may send a maximum of 30 contestants with the highest points in their home state.

Bill also won 1st place in reining on second go round. His average placed him in 5th place for the show. He placed 8th in Pole-bending, the only one from Texas to finish in the top scoring group in this event.

Bill's all-around Quarter Horse "Jupiter Hardtack" (Squat-Low) is a registered 10 year old sorrel gelding, which is usually entered in reining, ribbon roping, break-away roping, tie-down roping and pole bending events.

Bill has scored sufficient points in the Texas Youth Rodeo Association to be entered in the finals to be held in Kingsville on August 17, 18 and 19.

Tom, Bill's brother has been awarded the Gold Star by the FFA Chapter of Ft. Bend County, he is also a winning youth rodeo hand. Both these boys have won over 50 trophies in horse shows and rodeo events in the last 2 years.

Rebels Win No. 2 Spot In Playoffs

The Hearne Rebels won the number two spot in the Texas Teenage Junior playoffs held in Brownwood last week.

Hearne won the first game with Conroe Lions Wednesday 19-6. On Thursday they won from Snyder 4-5. The Friday game with Port Lavaca ended up with Hearne on the bottom end of a 20-5 score.

On Saturday morning Hearne again played Conroe and won 10-3. This put the Rebels in the final game Saturday evening at 7. Hearne lost this final game by the score of 5 to 6.

The highlights for the week for the Rebels were three solo home runs hit by David De Stafeno, a two run home run by Gene Kopriva to tie the Snyder game at 4 to 4. The winning run was then scored by Gary Hornung on his double and a single by Elvis Tyler.

A single game record of 15 strikeouts in a game by Melvin Bates was also one of the highlights. The entire team is to be congratulated on their entire playing and their overall conduct. They were a fine example of youth in action for a good cause.

Jones Prairie

By Mrs. Bill Thweatt

The revival came to a close Sunday after having wonderful crowds each night. A basket dinner was enjoyed by all at noon. At 2:30 Mr. Luther Todd was ordained deacon of the church.

Engagement Announced

Mr. and Mrs. Raymond W. Kurtz of Huntsville, formerly of Cameron, announce the engagement and approaching marriage of their daughter, Diane, to Mr. Scott R. Herring, son of Mr. and Mrs. Jack Herring of Madisonville, Texas.

Miss Kurtz attended Navarro Junior College in Corsicana and Sam Houston State University in Huntsville. Mr. Herring is a 1969 graduate of Sam Houston State and is now attending South Texas Law School in Houston.

A September 2 wedding is planned in Huntsville at St. Thomas Catholic Church.

Church Ceremony Unites Couple

MR. AND MRS. BEN FRANK WHITE III

Miss Jenny Mae Cryer, daughter of Mrs. Wendell Cryer, Cameron, and Mr. Ben Frank White III, grandson of Mrs. Ellis Coker, Cameron, were married at 2 p.m. July 16 in the First United Methodist Church, Cameron. Rev. Alvis Coleman officiated, Mrs. Pam Brauder of Lexington presented wedding music.

Given in marriage by her brother, Mr. Cliff Cryer, the bride wore a formal white silk organza A-line princess gown with jeweled Chantilly lace appliques and bishop sleeves. She carried a bouquet of yellow roses.

Miss Patricia Burnett was maid of honor and Mrs. Joe Mingus was matron of honor. Miss Judy Hollas was a bridesmaid and Christy Warrick was flower girl.

Serving as bestman was Mr. Randy Braden of Houston. Groomsmen were Mr. Donnie Tucker and Mr. Ricky Hairston. Ushers were Bo Cryer, brother of the bride, and Eddie Coker, cousin of the groom.

A reception was held in the Methodist Fellowship Hall. Members of the houseparty were Misses Vonda Chandler, Veronica Tepera, Janet Miller, Barbara Marburger and Carolyn Perkins.

The couple will make their home in Arlington.

MRS. HAROLD J. HOLLAS

Afternoon Cermony Unites Hollas-White

St. Monica's Catholic Church was the setting Saturday July 29 for the wedding of Miss Jolene White and Harold J. Hollas.

Father John Geiser officiated at the double-ring ceremony. Music was provided by Miss Jeanette Labaj of Temple, organist, and soloist.

The bride is the daughter of Mr. and Mrs. Boyd Lee White. The bridegroom is the son of Mr. and Mrs. Leo Hollas all of Cameron.

The bride, given in marriage by her father, was gowned in white organza over taffeta. Embroidered lace complimented the cuffs of the long full sleeves, the high neckline and lifted waist of the fitted bodice. The A-line skirt was bordered in lace. Her detachable chapel length train also bordered in lace was further enhanced by a large bow at the waist. Her tiered veil of illusion fell from a mira-mist pleated ring head-piece.

She carried a colonial nosegay bouquet of white carnations.

Mrs. Carlon Cooper of Amarillo was matron of honor. Bridesmaids were Lauri Kelly of Alvin, Joy Thompson of Temple and Kathy Hollas of Cameron, sister of the bridegroom. Donna Michalka of Cameron was flower girl.

Ricky Bradley of Cameron served as bestman. Groomsmen were Leon Hollas, John Hanel cousins of the bridegroom, and Craig White brother of the bride, all of Cameron.

Melvin Hollas of Cameron and Mike Brantley of Garland seated the guests.

Mrs. Frances Withers of Brazoria was honor guest.

A reception was held at the Methodist Fellowship Hall.

Houseparty members were Mrs. John Brantley of Cameron, Mrs. Ed Brantley of Houston. Mrs. Malwood Morris of Temple, Mrs. C. B. Franklin and Mrs. Helen Coston both of Waco, all aunts of the bride. Other members were Misses Shirley Cowan and Jennette Labaj both of Temple.

Mrs. Lee Hollas of Houston registered the guests. Donna Michalka of Cameron distributed rice bags.

Parents of the bridegroom hosted the rehearsal dinner friday night at the Texan Restaurant. The couple presented gifts to their attendants.

After a wedding trip to Oklahoma City, the couple will be at home at 412 South Cooper, Arlington, Texas.

Farewell Coffee Honors Sr. Aloysius

Sister Aloysius, X-ray and laboratory technician at St. Edward Hospital for the past 16 years and sponsor of the St. Edward Hospital Auxilliary for 5 years, was honored by the Auxilliary with a farewell coffee Saturday morning at the home of Mrs. Richard Bush, Auxilliary president.

An arrangement of autumn flowers centered the serving table and Miss Jane Burns presided at the silver coffee service. Members of the Hospital Auxilliary presented the honoree with a gift of $25.

Sister Aloysius will begin a one year leave of absence beginning August 21 to participate in a radiology technology graduate course at Incarnate Word College in San Antonio followed by 12 weeks of study at Santa Rosa Medical Center.

Cameron Man Returns For Reunion

A hometown boy who "made good" in the city will return home this weekend for a reunion with his family. He is Paul D. Brown, of Lawrence, L. I., N. Y.

He is a native Texan and a graduate of Paul Quinn College. He maintains residence in Dallas, Phoenix and New York City.

Brown owns his own business in Lawrence, which includes real estate, mortgage loans, sales, and insurance.

He recalls how he left Cameron after growing up working for Cameron families, and how he met leading citizens of Cameron while working in New York.

Brown began his climb by leaving Texas with $2 in his pocket. He has since, over the years, participated in sales to $1 million of real estate. He is also a general agent representing three large life insurance companies.

Paul was the oldest of three sons of Lula Brown, former wife of Spencer Brown, the barber, farmer and butcher to Marshal Brown. Mrs. Brown left her husband out in the country and moved to a three-room house in what was then known at the "Flat." She was a dedicated member of the Bethel A.M.E. Church in Cameron.

To help his mother. P.D. tried to make every daylight hour pay some dividends. He said he sold papers, made photographs, gilded beds and picture frames as a house to house school boy salesman after school, on weekends and when "not in the cotton patch."

When he reached high school, he had jobs in the businesses around the courthouse.

Brown granduated in 1919 from the 11th grade and was valedictorian of his class, speaking on "Success awaits at labor's gate."

"The grand climax came in September after graduation," Brown said, "when I walked into the bank from the cotton fields and talked Mr. Oxsheer Smith, the then cashier, out of an unsecured $50 loan."

The money was used to go to Waco and enroll in Paul Quinn College. The loan was repaid with interest from earnings as a waiter in Waco.

"Twenty years later in the Hotel New Yorker, working again and going to college again," Brown continued, "a very happy surprise meeting took place. Mr. Oxsheer was there at a bankers convention and I recognized him in the hotel. It was a joyful and historic renewal of a most valued acquaintence that can never be forgotten."

He also met the owner of the Jeter Lumber Co. in a hotel in Dallas in 1922. "I made myself known to him and explained my plans for the future. He congratulated me and gave my courage a needed shot in the arm."

"So Cameron was to me my land of opportunity," Brown said," which is about what one chooses to make it. Being called back by my relatives for a family reunion affords this opportunity by me to say thanks to Cameron for having been so very good to one more little Milam County Cameron cotton picker."

2 Alcoans Retired

A pair of employees with 38 years of combined service have retired from Aluminum Company of America's Rockdale Works.

John Morris, Jr., and Irvin G. Muston, both head tapper-carbon changers in Alcoa's largest smelting plant, ended their careers August 1.

Morris, a native and resident of Lexington, joined Alcoa in November, 1952. He spent his entire career in the potrooms, or aluminum producing units.

An Army veteran, Morris is a member of the American Legion. He and his wife, Wilma Faye, have four children. They are members of the Baptist church.

Muston, also a native of Lexington, joined Alcoa in June, 1953, and also spent his career in the Rockdale Works potrooms.

Muston, an Army veteran, is a member of Woodmen of the World. He and his wife, Estelle, have five children. The Mustons reside at 326 North Rice in Rockdale and are members of the Baptist church.

Kubiak Calls For Insurance Reform

Rep. Dan Kubiak said he has asked Gov. Smith to call a special session to revise the Texas insurance laws and to abolish the three man Texas Insurance Board.

In his weekly newsletter Kubiak said Texans will receive an 11 percent decrease in automobile insurance premiums beginning in September, but "even leading insurance company officials agree that this is a token reduction," he said.

Officials indicate that the amount should have exceeded 20 percent since the accident rate has decreased drastically during the past two years.

"Texans spend four times as much on insurance in Texas per year as is spent on taxes for the States of Texas," Kubiak continued.

Kubiak said the 20 percent plus reduction should have been made as a result of the following:

1. Three percent reduction can be achieved by properly applying investment income data. (The money the companies take in and invest in other areas.)

2. Another 2.5 percent decrease can be attained by reducing the inflation trend factor to take into consideration the effect of wage and price controls on the inflated costs of repairs.

3. An additional 4.5 percent reduction seems in order to take into account the insurance companies' reduction of agents' commissions. (The average commission paid to agents for servicing policies is about 17 percent, but the State Board of Insurance still allows 21.5 percent with the companies pocketing the extra 4.5 percent as a hidden windfall at the expense of the agents and the public.)

"The time is right for insurance reform in Texas," Kubiak said, "and I am including automobile, homeowners, small business insurance and the entire field of insurance."

Obituaries

Wieser

Otto L. Wieser, 80, of Rosebud, died Sunday morning in a Rosebud hospital after a long illness.

Funeral was held at 9 a.m. Tuesday at the Hoelscher Funeral Home in Rosebud. The Rev. E. A. Hickman officiated. Burial was in Woodland Cemetery in Rosebud.

Mr. Wieser was born in Washington County Feb. 26, 1892. He had lived in the Rosebud area the greater part of his life. He was a retired farmer.

Surviving are his wife, Mrs. Ida Wieser of Rosebud; four sons, Larry Wieser of Rosebud, Harold Wieser and Delmon Wieser, both of Baytown and Wayne Wieser of Cameron; three daughters, Miss Nannie Lee Wieser and Mrs. Aline Smith, both of Rosebud and Mrs. Archie West of Baytown; two sisters, Mrs. Alma Goldman and Mrs. Grady Wright, both of Rosebud; and 10 grandchildren.

Guggolz

J. F. Guggolz, 92, former resident of Cameron, died in Bryan early Tuesday morning. He was born August 13, 1879 in Freestone County, and moved to Cameron in 1920 where he was an engineer for the original Cameron Water and Power Co. and the Cameron Ice and Cold Storage Co.

He had made his home in Bryan for the past 10 years and was a member of the Methodist Church.

Funeral was held at 1 p.m. Wednesday in the chapel of Green Funeral Home, with Rev. Guy Pry officiating. Burial was in Oak Hill Cemetery.

He is survived by one sister, Mrs. Susie Allen of San Antonio.

Lions Hear Pollution Program

Guest speaker for the Noon Lions Club Monday was Brooks Parker, chief of the environmental engineering group at Alcoa.

Parker told Lions that environmental pollution can be traced "right to our own doorstep." He noted that right now the average waste of all types per person per day is 7 and one-half pounds. By 1986 it is estimated that this will increase to 8 pounds per person per day.

"So in the processes of making aluminum to the washing of socks we all add to the pollution of our environment," he said.

Parker added that by the year 2010 the world population will be double that of today with each new person a potential polluter.

"Within the next six years Alcoa has plans for spending 96 million dollars on waste control throughout the United States in its various factories," he said.

"Each person needs to be concerned and help search for various ways in which our environment can be kept clean," he concluded.

I'm Serious!

Maybe you like smiling babies? Sorry to disappoint you, but I've got a lot on my mind.

There's something wrong in America . . . and I'm the chap who is getting hurt!

Our Constitution says that no one can be denied the right to worship God. I'm an American! According to the Constitution I have the right to learn about God, to hear the Bible Stories, to be taught the Christian Way of Life.

But here's the hitch. While the Government can't deny me the right to attend church school and church—MY PARENTS CAN. They can rob me of my most sacred right just by neglecting my spiritual needs.

Did you know that about half the children in America are growing up without religious training? And yet there's a church in every village!

Yes sir, I'm serious! Instead of **talking** about it, we ought to do **something**! And we ought to start Sunday!

NOTICE

NOTICE OF HIGHWAY IMPROVEMENT

The Texas Highway Department offered an opportunity for a public hearing to be requested by publication on July 13 and 20, 1972 of a notice reporting the proposed improvement of FM 3242 from US 79 at Gause, northwest to Pin Oak Creek. No requests for a public hearing were received; therefore, the Residency Office of the Texas Highway Department, at Hearne, Texas, has submitted all of the engineering data and information received in connection with the development of this project for approval of the proposed route and design by the District Office of the Texas Highway Department at Bryan, Texas.

The proposed design provides for a two-lane highway following along the present county road with partial relocation with an average right of way width of 100 feet.

Maps and drawings showing the proposed location and geometric design, environmental studies and all other available data concerning the development of this project project may be inspected and copied at the Resident Engineer's Office at the Texas Highway Department, Highway 6 North, P. O. Box 506, Hearne, Texas 77859. 43-1tc

GOD'S MESSENGER—GOD SENT.
DO NOT MISTAKE HER FOR ANY OTHER READER
OPEN DAILY & SUNDAYS 8 A.M. TO 10P.
Touch of her hand will heal you. SISTER has the God-Given Power to Heal by Prayer. Everyone welcome, at SISTER'S Home. What you see with your eyes your heart will believe. Are you suffering? Are you sick? Do you need help? Do you have hard luck? Bring your problems to SISTER today and be rid of them tomorrow. She advises on all affairs of life. There is no problem so great she can't solve (how to hold your job when you have failed, and how to succeed, calls your friends and enemies by name without asking you a single word, and reunites the separated). If you suffer from alcoholism and cannot find a cure, don't fail to see this Gifted Woman who will help you.
She gives lucky days and hands. Lifts you out of sorrow.
